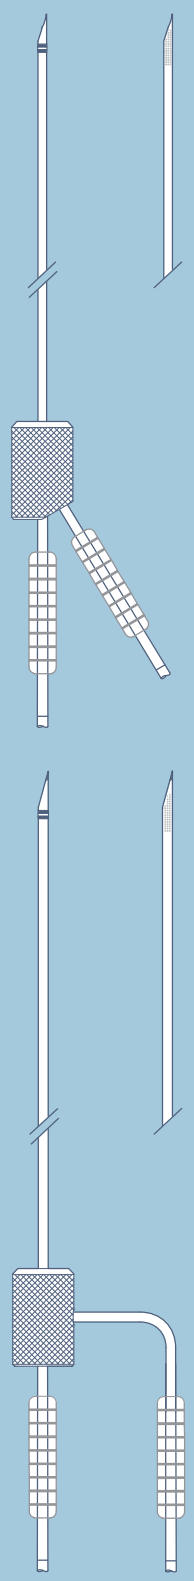
SUPERIOR FAS
SINGLE LUMEN FLUSH

CUSTOM-MADE FOLLICLE ASPIRATION SET

The Superior FAS, the follicle aspiration set is implemented for ultrasound-guided, transvaginal harvesting of oocytes from follicles for IVF and ICSI.



FEATURES

- flushing connector enables flushing and aspirating during complicated oocyte retrieval or when few mature oocytes occure
- flushing and aspirating procedure is performed separately through one lumen
- sharp lancet and back cut bevel tip available that ensure a clean facet cutting
- dual laser marked tip available which offer stable and excellent vision during ultrasound
- translucent tubing in the same size as needle for safe oocyte retrieval
- various needle sizes for ovaries with complicated and/or limited access
- handle shape facilitates rotation
- custom-made
