GYNÉTIKS AT ESHRE 2014

Dear Partners,

The Gynétics team would like to thank you for visiting us at Eshre 2014. It has been our great pleasure to meet up with you.

This year's edition was hosted by the Bavarian city of Munich – Germany and counted nearly 9000 participants.

Eshre has once again been an ideal opportunity to present and promote „Gynétics“ to the global IVF market and offered many new business opportunities. All information is currently being processed and followed up by our Sales team.

Gynétics was proud to present some new exciting products at the booth, soon to be available such as the „Pump-ID“ and „Hold-ID“, two additional products that complement our popular denuding pipette range, the re-invented „Emtrac O“ embryo transfer catheter set with a truly one-of-a-kind soft bulb shaped tip, an improved echogenic tip marking for all Premium follicles aspiration sets plus additional models featuring a super penetrating back cut bevel tip. Detailed information about these products will follow soon. Have a look at the attached flyer for a sneak preview and find out more.

The Gynétics partner presentation at our booth has been a grand success. We were pleased to welcome many among you and share our plans and vision about our newest products and upcoming Marketing activities and you were offered the opportunity to view the entire product range showcased at the booth.

We hope to welcome you next year in the beautiful city of Lisbon – Portugal for the next ESHRE 2015 edition and already warmly invite you to visit us there.

Yours sincerely

The Gynétics team
