

IUI MEMO

UTERINE INSEMINATOR FOR WASHED SPERMATOZOA WITH MEMORY FUNCTION

The IUI Memo is an intrauterine insemination cannula with MEMO function, which proactively enables the distal tip to bend according to cervical flexion.

FEATURES

- positioner to prevent damage to fundus
- two lateral ports at distal end for optimal sperm distribution
- arrows on handle to indicate lateral ports at distal end
- markings on outer tube
- memory function
- handle with luer lock for a more secure fitting to syringes
